

PSYCHOLOGY SPECIALISATION

WHY PSYCHOLOGY?

Job and career opportunities in the human services are expanding and this trend is likely to continue. Psychology in particular has been predicted to be a growth area for work opportunities. The skills and knowledge developed through a major in psychology are useful in a wide variety of careers, and in dealing with issues and relationships on a day to day basis. Such competencies include knowledge of human behaviour, motivation and cognitive processes, analytical, research and statistical skills, and understanding of relationships and communication. Upon completion of a Bachelor's degree with a specialization in psychology, students are eligible to apply for an Honours/4th year of study in psychology. Registration as a psychologist requires completion of the 4th year, plus an accredited masters/doctoral sequence.

STRUCTURE OF THE PSYCHOLOGY SPECIALISATION

This specialisation is taken as part of a three year sequence of study in a Bachelor of Arts, Bachelor of Psychology or Bachelor of Science degree at either the Footscray Park or St Albans Campus. Units may also be taken as electives within other degree programs. Students are required to complete TEN units including the two first-year units. Only a selection of the second and third-year units are offered each year.

For holders of another Bachelor's degree, the psychology specialisation is available in the Graduate Diploma in Psychological Studies.

To complete a Psychology specialisation (formally known as major), students are required to complete TEN (10) units of study. There are eight compulsory units APP1012, APP1013, APP2013, APP2014, APP2101, APP3035, APP3036 and APP3037 and two electives.

STRUCTURE OF THE PSYCHOLOGY SPECIALISATION
